

## Summary of 2016-17 Programs

Our staff will work with you to find the combination of classroom and enrichment studio hours that works best for you and your child.

### Montessori Classroom Programs

#### Elementary (ages 6-12)

8:30 am – 3:00 pm

Our elementary program builds on the foundation the child received in a Montessori primary program. Now the student moves from the concrete, hands-on learning that was appropriate for younger children to more imaginative and abstract learning in groups. Children begin to explore the universe and strengthen their sense of community, balancing the freedoms and responsibilities inherent in the Montessori elementary experience.

Our goal is to develop culturally literate children who have a sense of respect and duty toward themselves and society, and to nurture their innate curiosity, creativity and intelligence.

#### Children's House (ages 2 ½-7)

Our Children's House program carries the child through their kindergarten year, promoting them into the first grade of the elementary program as confident and joyful learners. As a member of a classroom community that includes a range of ages, children work independently, but also in small groups. Often older children serve as mentors, setting an example and giving lessons to younger members of the community. This environment provides children a special opportunity to develop compassion, leadership skills and an attitude of service as they grow and learn.

#### Full Day Montessori

8:30 am – 3:00 pm

Children engage in a three-hour morning work cycle, lunch and recess together. In the afternoon, we provide a separate, quiet space for younger children who require naps while older children return to their Montessori classroom.

#### Half-Day Montessori

8:30 am – 1:00 pm

Children in our Half-Day Montessori program participate in the three-hour morning work cycle, lunch and recess. They are dismissed prior to rest time and afternoon activities.
